### WORK EXPERIENCE

#### LEADING BANK FROM UAE:

##### 2.ADCB PROTRADE REPORTS(ABUDHABI COMMERCIAL BANK) Oracle, Bangalore

Worked on three different reports such as OutStanding/maturity,Loans,Turn-over on the register,run,schedule and view parts and customizing the UI part.Also worked on the integrating the data from two different sources and joining them and displaying the data for all the three reports and have updated the scheduling from the traditional BIP scheduling to the Quartz Cron scheduler and have inserted and stored the data.

**Technologies:** JAVA, Html, Css, JS, XSL.

#### LEADING BANK FROM UAE:

##### 3.MASHREQ (Federal Tax Authority (FTA)Payment)Oracle, Bangalore

- Worked on creating a new screen for the tax payment for the mashreq bank,where the customer logs in and selects the beneficiary.Once the beneficiary is selected few of the fields need to be auto populated like GIBAN,Beneficiary Name,Bank Name,Swift Code and a new Drop down for presenting Invoice Numbers has been created.Once the invoice number is selected the invoice value present for the invoice number need to be shown in the payment details and a single option for pay now is enabled where the customer can pay the Amount.Once the record is submitted all the values need to be given to the next screens such as verify screen and confirm screen.
- Once we reach the final screen the user will have an option to generate the e-receipt where in which he can print,download or email the FTA payment to his email or download in pdf format.

**Technologies:** JAVA, Html, Css, JS, XSL.

##### 4.TECHNOLOGY CHANGE MANAGEMENT(TCM), CLIENT – MORGAN STANLEY

Tcm is a data entry and workflow tool supporting the Change Management process ensuring the firm meets its regulatory and production stability requirements. It provides a mechanism for change requests to be entered, reviewed, risk assessed and approved. My role is do develop new implementation with refined logic and less complexity and cover the full Length test scenarios as well.

**Technologies:** Spring Boot,Sybase,Java,DB2,Swagger UI.
